

METAL FORMS CORPORATION  
SINCE 1909

## EMPLOYEE PROFILE

### AMY BRYAN Controller

We are pleased to welcome Amy Bryan to the Metal Forms Corporation team!

When asked what attracted her to MFC, Amy shared:

*"I really liked that Metal Forms makes something tangible that you can see being used and show to others. I was interested in learning more about concrete forms and how they are used. Working in the Riverwest area was also very appealing."*

As Controller, Amy plays a key role within our accounting department. She is responsible for preparing financial reports, monitoring company financial transactions, and ensuring both customers and vendors have the information they need to conduct business efficiently with MFC.

When asked what she enjoys most about working at Metal Forms so far, Amy highlighted the company's culture:

*"The friendly atmosphere. Everyone is very helpful and works together to reach our common goals."*

Outside of work, Amy is an avid mountain biker and enjoys sharing her passion for cycling with others through coaching for NICA (National Interscholastic Cycling Association). In addition to coaching, she enjoys riding recreationally and exploring Wisconsin and the Upper Midwest in search of hidden gems and off-the-beaten-path destinations. These adventures are often a family affair, enjoyed alongside her spouse, Joe, and their children.

We're excited to have Amy as part of the MFC family and look forward to the experience, enthusiasm, and expertise she brings to our team.
