

Oklahoma City - Tulsa - Lawton

"Supplying the Needs of Construction From Start to Finish"...

.....Is the motto of Maxwell Supply Company of Oklahoma. Since 1958 the company has serviced Oklahoma City, Tulsa and Lawton contractors with quality materials and products for the construction industry. All of Maxwell Supply's 65 employees strive to provide their customers with an array of supplies for site-work to highway construction. Their highly professional and qualified personnel service the central, northeast and southwest areas of the State of Oklahoma with the highest level of service and largest inventory in their area.

That same level of service is why the Award of Merit was given to Maxwell Supply for responding in an exceptional manner to the rescue workers and craftsmen's needs during the rescue and recovery operation following the bombing of the Alfred P. Murrah Federal Building on April 19, 1995.

MFC has partnered with Maxwell Supply Company for almost 20 years. This long and positive relationship has elevated Maxwell to Master Dealer status. Being a Master Dealer for MFC not only provides Maxwell Supply with the best pricing, it also increases sales by having products immediately available in stock.

MFC salutes Maxwell Supply Company for its more than 50 years of operation as Oklahoma's leading construction supply company for quality products and service.
